USV - Urban Sustainable Vehicle

#madeingermany

Unique.  
Sustainable.

## eMobility consistently thought through

For seven years, e.GO develops innovative electric vehicles that are perfectly suited to urban requirements and groundbreaking in terms of sustainable production.

As an independent German manufacturer, we can rethink solutions, building on the best of German engineering. Starting with the revolutionary production to the inspiring product - the e.wave X.

It is created in our Micro-Factory in Aachen. Here we realize platform solutions for battery-powered electric vehicles, based on a revolutionary production system that takes a completely new approach to electric vehicle manufacturing. We think sustainability holistically.

This starts with optimizing the energy and environmental footprint of our unique Micro-Factorys and extends to the selection of durable and reusable materials for our products.

Our decentralized production technologies help create local and economic added value. Our unique products and services are designed to help cities and their residents change the way they move for the better.

### **Our aspirations:**

**e.GO - the true partner with planet Earth, Made in Germany**

# e.wave X

## THE city crossover

The e.wave X is the innovative and sustainable crossover car for urban surroundings. The first USV - Urban Sustainable Vehicle. It is the solution that marks the beginning of a new era in electric vehicles. As the second model after the already sold-out e.GO Life, the e.wave X combines everyday practicality and comfort with innovation and sustainability; all packed into a car with crossover feel, sporty handling and robust performance.

## Most important

Optimized dimensions for a four-seater that fits into almost any parking space.

Remarkable driving dynamics that enable a lot of driving pleasure.

Intelligent and flexible battery solution that is not dependent on the availability of a specific charging infrastructure.

Ultra-wide 23-inch digital display and many connected features that create a unique user experience.

New colors with WOW-Factor.

LED headlights, frameless doors and aluminum wheels highlight the innovative look.

# The key facts at a glance:

City range  
up to

250km

Smart Charging

11 kW

Now from

24.990€

## 23" Ultrawide-Cockpit

At 23", the largest glass display in the urban segment looks as if it is floating above the high-quality dashboard. The instrument display clearly shows you all relevant vehicle information. The infotainment touch display offers you a range of multimedia and additional functions.

## Driving pleasure and charging

With over 80 kW it glides over the streets of your city. The electric driving pleasure. And the 11 kW charger quickly gets it going again.

## Connectivity

The e.GO Connect app allows you to preheat or cool your e.wave X remotely. With Wireless Apple CarPlay® and Android Auto®, every drive becomes your unique experience. Alexa integration, which can provide you with information on charge status and route options at any time, and the Charging Pad ensure that you reach your destinations full of energy.

## Sustainability

We go all out for the sake of sustainable mobility. Even if we have to make compromises here and there - sustainability is high on our agenda.

# Interior

The entire interior of the e.wave X is clean and tidy. Its unique look and feel ensure a unique sense of space. At the same time, it offers sufficient space for four adults.

The comfort seats are made of a combination of Dinamica® and Scuba Vinyl. Both fabrics have recycled contents, underlining our approach to sustainable mobility. The seats are both comfortable and durable, with Dinamica® not heating up as much as conventional seat covers, especially in high temperatures.

The high seating position gives you a perfect overview and the ultimate cross-over feeling on the road, and comes along with a dynamic look and the best possible lateral support and comfort. Design elements made of Scuba Vinyl in the color silver grey and an embossed e.GO signet in the front headrests round off the sporty overall appearance.

The rear seats can be folded down individually or together into the horizontal position, creating significantly more storage space with the help of the flat trunk floor. Since the engine is located on the rear axle, the center tunnel has been dispensed with. This provides extra legroom in the front seats.

ISOFIX on the rear seats and the front passenger seat also protects our little passengers, while the multiple storage options for everything from teddy bears to bags make short city trips and shopping more practical and easy than ever.

# Exterior

Impressive, already at first glance: stylish LED headlights, frameless doors and cool aluminum wheels.

At second glance: The crossover feeling of the additional high beams awakens „have-to-have impulses.“ The additional roof rack is also unparalleled.

The particularly lightweight, innovative and robust polymer outer skin forms a muscular side relief and fenders with strong character, which shine with intense color and brilliant gloss completely without classic paint. Scratches are hardly noticeable due to the innovative through-colored material and can be easily polished out.

Charge your e.wave X with the 11 kW smart charging or conveniently at any household socket - as easy as charging your smartphone.

## Safety

The torsional stiffness of the Alu-Space frame not only increases passive safety, it also contributes significantly to the superior performance. At the same time, the frame is very durable.

# Technical details

### Drive & Driving performance

Power (continuous/peak)	44 kW / 86 kW
Top speed	135 km/h

### Battery & Charging

Battery type	Lithium-ion
Battery capacity (gross)	30.4 kWh
Electric range (WLTP Combined)	163 km
Electric Range (City)	250 km

### Energy consumption

Energy Consumption (WLTP Combined)	18.6 kWh/100km
CO <sup>2</sup> emissions	0 g/km
Efficiency class	A+++

### Weight

EC curb weight (incl. 75kg driver)	1,280 - 1,290 kg
Permissible total weight	1570 kg
Vehicle Load Capacity	280 - 290 kg

### Dimensions

Vehicle length	3,360 mm
Gross vehicle width (excl. exterior mirrors)	1,814 mm
Vehicle height with railing	1,632 - 1,638 mm
Wheelbase	2,200 mm
Luggage capacity	116 l
Luggage capacity (rear seats folded)	617 l
Turning circle	11.35 m

Rims

Alloy wheels Dark Black, Pinstripe Red with 205/60 R15 offroad-style all season tyres

Alloy wheels Pure Silver with 205/50 R17 all season tyres

Alloy wheels Diamond Black, machine-surfaced with 225/40 R18 all season tyres

Alloy wheels Exclusive Diamond Black with 225/40 R18 all season tyres

Trim-lines

You can find the complete info on the standard equipment on our website:

Native

The e.wave X Native equipment already offers many equipment details in addition to the extensive standard equipment:

- 23" Ultrawide Cockpit
- Electric heating and automatic air conditioning
- 17" alloy wheels Pure Silver with 205/50 R17 all season tyres
- Rounded LED headlights
- Charging performance AC: 11 kW 3-phase charging (type 2)
- Exterior colour Pearl White metallic (included)
- Comfort seats with black fabric and design elements in silver grey
- Interior design elements in black and silver grey
- Black air vents

from 24,990€

Urban

In addition to the e.wave X Native, the e.wave X Urban features e.wave X Urban also offers the following extensive features:

- 18" alloy wheels Diamond Black, machine-surfaced with 225/40 all season tyres
- Front and rear park assistant incl. rear view camera
- Wireless Apple Carplay® and Android Auto®
- Wireless smartphone charger
- Bluetooth hands-free phone connection
- Heated seats for driver and passenger
- Interior pre-heating via infotainment system
- Black 3-spoke leather steering wheel with silver grey design accents
- Interior design elements in piano black
- Air vents with design accents in piano black
- Floor mats with e.GO logo

from 27,990€

Metropolitan

In addition to the e.wave X Urban, the e.wave X Metropolitan equipment offers you the following extensive features:

- 18" alloy wheels Exclusive Black with 225/40 R18 all season tyres
- Comfort seats in Dinamica® with design elements in silver grey
- Black 3-spoke soft touch Alcantara® leather steering wheel with silver grey design accents
- Privacy glass on rear windows
- Floor mats with e.GO logo

from 29,790€

#### Disclaimer

e.wave X 86kW | Electricity consumption 18.6kWh/100km and  
CO<sup>2</sup> emissions combined: 0 g/km 2 | Efficiency class: A+++

Official data on fuel consumption, CO<sup>2</sup> emissions, electricity consumption and electric range were determined in accordance with the prescribed measurement procedure and comply with Regulation (EU) 715/2007 as amended. Figures in the NEDC take into account differences in the selected wheel and tire size of the e.wave X in the case of ranges, and in the WLTP of any optional equipment of the aforementioned vehicle. WLTP values are used for the assessment of taxes and other vehicle-related levies that are (also) based on CO<sup>2</sup> emissions and, where applicable, for the purposes of vehicle-specific subsidies. Where applicable, the NEDC values listed were determined on the basis of the new WLTP measurement procedure and converted back to the NEDC measurement procedure for comparability. For vehicles newly type-approved since 01.01.2021, the official data only exist according to WLTP.

Further information on the official fuel consumption and the official specific CO<sup>2</sup> emissions of new passenger cars can be found in the , Guide to Fuel Consumption, CO<sup>2</sup> Emissions and Electricity Consumption of New Passenger Cars', which is available free of charge at all sales outlets of our distribution partners, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, and at <https://www.dat.de/co2/>.
